Power Name = 6      Intensity Number = 8

Hello Mary! ...and welcome to your **Numerology Report!** .....Above you'll see your *Numerology Chart*, with all of your *Numbers*. This way you can see them all at a glance. It's useful to look at it as a *Whole*. As you can see, there many 6's ....Those are from the **3 – 6 – 9 Numbers Group: Communication and Creativity**. Now we will dive a bit deeper into that and all your *Numbers* for you....

I like to start off with the *World Year Number* (sometimes called the *Universal Year*), which is not part of your Chart, but everyone on the planet is under the influence of.

We are currently in a **World Year of 4 – Structure and Plans**. Home energy, education, and stability in love rule the year! Painting, redecorating, adding new colors to your home; or creating your perfect nest. Four is all about learning and teaching. A wonderful year to take a course, go back to school, or teach something you love. On the shadow side you can be inflexible and a bit of a perfectionist.

*Continued....*

It's a year where you want stability but don't rule out taking a risk on something you really desire! It's also an excellent year for Plans and setting the ground work for future progress!

In addition to the *World Year Number*, each of us is somewhere in our 9-Year *Personal Year Cycle* ...You are in a **Personal Year of 1!** ...New Beginnings – The beginning of a Whole \*New Cycle! ....Don't let fear hold you back! It's like a green light, from *The Universe*, to take advantage of new opportunities; a do-over.

Independence, innovation, be the best you can be. Your personal power is considerable, so go for it. The shadow side, letting your ego get in the way, stubborn, and bossy. You are one of a kind, celebrate your leadership and uniqueness! It's the year of the Magician, and the magic is in you!

Your **Life Path Number is 33/6!** ...Arguably the most important *Number* in your *Chart*, The *Life Path* is derived from your full Birth Date. I liken it to your *Sun Sign*, in Astrology.

SIXES are nurturers. If men, they rescue damsels in distress. If women, they mother the "little boy" in their men. They should manage or run the company. If every thing is going smoothly, they must be careful not to ruin it. They tend to put people on pedestals which then topple. Magnetic. People are drawn to them. Their moods affect the room.

As we discussed before, before the final reduction to "6", I got "33" *The Master Healer / Master Teacher Number*...

*Continued...*

Folks with a *Master Number* Life Path have a higher calling. In the case of a 33 Life Path, they are meant to be a great healer and teacher. However, they may knowingly or unknowingly choose **not** to follow / be in alignment with this path (Energy), in which case they will be in the fully reduced Number (Energy), in your case “6”....

Your **Attitude Number is 6!** ...Derived from your Month and Day of Birth, The 6 Attitude is the nurturer. Male or female, they are taking care of everybody else. So if you have a child with a 6 attitude. They act as if they are your mother or father, they're the ones in charge; they don't want you telling them what to do or how to be.

They feel useful only when things are out of control and they are fixing it. If it's peaceful, they don't know what to do with them selves. They definitely take care of other people and they're usually great with children or running a business. When a 6 walks in a room, we are drawn to them like a moth to the flame.

Your **Birth Day Number is 6!** ....Obviously your Day of Birth ( $15 = 1 + 5 = 6$ ), this number symbolizes Venus. People born on the 6<sup>th</sup>, 15<sup>th</sup> and 24<sup>th</sup> are extremely magnetic and adored, determined in carrying out their plans, artistic, entertaining, loving, romantic, affectionate, fond of music, paintings and anything that is rich. Great power of making friends but cannot stand jealousy.

They appear as a born nurturer; someone who carves love, friends and companionship. When a 6 Birthday walks into a room, you will feel their presence immediately.

*Continued...*

They have a dynamic energy. The world sees them as a solid personality, very responsible and capable of managing other people. A 6 Birthday instinctively knows how to deal with children, and pets usually respond to them with instant affection.

Your ***Destiny Number is 1!*** ...This *Number* comes from your full Name at Birth. Before you leave the planet, your destiny is to be number 1 at what you do. You are a leader, and need to be in charge. You push yourself the hardest and strive to be the very best at everything you attempt. When you have achieved one of your major goals, teach yourself to take time out and really enjoy the moment.

With Destiny Number 1, you will have all the time you need to realize your dreams. You must remember you are only human; it's OK to make mistakes on your way to achieving excellence. It would be wise to center your enormous energies – try Yoga, or any of the other Eastern schools of meditation to achieve inner serenity....

Your ***Soul-Urge Number is 8!*** ...This is derived from the Vowels in your Birth Name.

*My 8 soul is fulfilled when I have financial freedom, job security, and a nice home. When I am in charge and people do as I say. When I speak the Truth and see justice in a difficult situation....*

*Continued...*

***Personality Number 11/2.*** The *Personality Number* comes from the Consonants in your Birth Name. These folks appear as someone who is the peacemaker, the born mediator. You do best in partnerships. You have to watch being oversensitive, and learn to establish boundaries, for you are a person that appears to be the perfect friend, and some would take advantage of this.

You feel incomplete alone, and even avoid the spotlight, seeking companionship above all. This *Number* favors marriage and business alliances. Your innate fairness and sincerity give you a good chance of succeeding at both.

Once again we have a *Master Number* ....In this case *The Master Illuminator Number 11*. While appearing in the *Personality Number* is not as significant as say your *Life Path* or *Destiny Numbers*, unlike other Numerologists, I feel it's worth noting.

Your ***Power Name Number is 6!*** ....Yet another "6", this *Number* is derived from the Name you are *most commonly know by now*. Unlike your Date of Birth and Birth Name, which cannot be changed, we have control over the Power Name. Some folks even completely change their Name, such as when *Reginald Kenneth Dwight* become *Elton John!*

The Power Name Number 6 person is usually attractive in a way that goes beyond the physical. You present yourself well. There's a magnetism to you. You want to be in charge, and your air of authority makes it easy for others to follow you.

*Continued...*

Damage control is your specialty and sometimes you get nervous when things go too smoothly. Relax, trouble is not necessarily around the corner. You are dependable to the point where you must seek a balance and learn to loosen up and enjoy the life you have so industriously built for yourself and your loved ones.

Your ***Intensity Number is 8!*** ...This *Number* is sometimes tricky to calculate, but generally refers to the *Number* that appears within your *Birth Name* the ***most***.

This is the 2<sup>nd</sup> “8” that appears in your Chart. The 8 is the Number of Success. It is business-minded. They're going to do what it takes to succeed in this lifetime. They tend to be the workaholic. The key is financial success. That's the intensity of Number 8. They have to learn to pay more attention to people in their Lives, for whom they work so hard in the first place. The 8 Intensity needs to learn to take advice to avoid being victimized.

WOW! That was amazing! I hope you enjoyed your *Report* as much as I did making it! ...There's a lot of Information there, and so you can see why I prefer doing someone's *Numerology Chart* before a Reading.

One thing I didn't mention is that your Personal Year Number of *1* is in alignment with your *Destiny Number of 1!* I always like to make note of that, when one's *Life Path, Attitude* or *Destiny Number* aligns with the current World Year or Personal Year ...you should ***really*** take advantage of that! .....Any questions you have we can cover in your Reading!

***Blessings,***
