Hello Alena! ...and welcome to your **Numerology Report!**Above you'll see your *Numerology Chart*, with all of your *Numbers*. This way you can see them all at a glance. It's useful to look at it as a *Whole* this way....

As you can see, there's a predominance of 3's & 6's ...Those are from the **3 – 6 – 9 Numbers Group: Communication and Creativity**, as well as 7's...

Johnny also has 6's and 7's, and this is where the attraction comes from, what you have in common ...but more on that later! Now we will dive a bit deeper into each individual Number in your Chart....

I like to start off with the *World Year Number* (sometimes called the *Universal Year*), which is not part of your Chart, but everyone on the planet is under the influence of.

We are currently in a **World Year of 5 – Adventure, High-Energy, Change**. A year of adventure and change; you won't be bored! Plan out your trips for the year – day trips to your local parks, museums, or long distance destinations.

Continued....

Create a vision board with all the places and things you choose to manifest this year. A 5-year brings fast energy. Seeking out activities and relationships that are grounding will be your best friend this year.

You may want to add some things to your business or life. Great ideas come up in a 5 year and in a 6 year it will payoff. It's not an ideal year for personal commitments but if you do, take a good look, take it slow and remember you are worth waiting for! Surprises await you around every corner so go forward with an open heart!

In addition to the *World Year Number*, each of us is somewhere in our 9-Year *Personal Year Cycle* ...You are in a **Personal Year of 7!** ...Which is in alignment with your Destiny and Birthday Numbers.

A magical and spiritual year! In a personal year of 7 you feel drawn to connect with your spirituality, your antenna is up where your intuition is concerned. You may venture out attending workshops, and finding people who are like minded. If there is research to be done, this is the year. What about that genealogy project you have thought about or researching something you dreamed of?

In a 7 year you can often live in your head a bit too much and need personal space. Just don't hermit in too long and once you've had your space, get back into the game. Find time to listen to music, take walks in nature and being near water can be very comforting and healing. 7 is a magical and mystical number; there is mystery in the air this year!

Your ***Life Path Number is 8!*** ...Arguably the most important *Number* in your *Chart*, The *Life Path* is derived from your full Birth Date. I liken it to your *Sun Sign*, in Astrology.

EIGHTS do not feel safe unless they have found a way to establish financial security. It is difficult for the 8s to take advice. When they make a choice, they must feel it is their decision, NOT SOMEONE ELSE'S. As a result, they do tend to learn the hard way.

8s are very honest and by being so blunt, they unintentionally hurt feelings. Although they can sometimes appear insensitive, what is going on inside them is the exact opposite. They do feel deeply about everything that goes on in their lives.

Your ***Attitude Number is 2!*** ...Derived from your Month and Day of Birth, The 2 Attitude is easy going. They are very good observers. They're also drawn to anything regarding psychic ability, and often may experience déjà vu. It is not uncommon for them to have a dream that comes true.

They are in touch with their intuition and the metaphysical side of life. They do have compassion for people and are fascinated with people's stories. They are seldom bored.

I wrote this Number as **11/2**, because before the final reduction to "2", I got "11"This is called a *Master Number* in *Numerology*. It means an opportunity for a higher-calling. ***Master Number 11*** is *The Master Illuminator Number*, and they are here to teach the rest of us....

Your **Birth Day Number is 7!**Obviously your Day of Birth, This Number symbolizes Neptune and also ketu. People born on the 7th, 16th and 25th are ruled and governed by this number. They appear as someone who must have some solitude on occasion. They are very independent, original and have strong marked individuality.

This number is regarded as the number of mystery relating to the spiritual side. They are intellectual and looking for the profound answers as to why we are here. They love change and travel, often restless in nature, visit foreign countries, keep universal knowledge, are good writers, painters, poets and they rarely care about the material things of life.

Being philosophical in nature they create their own religion. Inclined towards occult studies they have strong intuition power and are certainly magnetic in nature.

Others may feel 7's are hard to know. They often do not give themselves enough credit when they have accomplished something significant. They make a bigger difference than they realize. Music and nature have a profound effect on them, and so they should have both in their day-to-day Life.

Your **Destiny Number is also a 7!** ...This *Number* comes from your full Name at Birth. Before you leave the planet, your destiny is to seek faith and meaning in Life.

Continued...

You are a spiritual being, and if you deny that aspect of yourself, you will never find true peace. You need your solitude, but you also have a need to share your beliefs with others. You will often choose to do this through writing or music. Do your best to avoid becoming cynical from bad life experiences. You need to escape harsh reality, and you have to learn to do this in nondestructive ways.

It's good for you to explore the world and be near the ocean or a beautiful environment, such as the mountains. Avoid drugs and alcohol. Meditation is a natural for you, and it will help you achieve the tranquility you seek....

Your ***Soul-Urge Number is 4!*** ...This is derived from the Vowels in your Birth Name.

My 4 soul is fulfilled when I have security, and my bills are paid. When I have a solid plan for the future and live in an environment that I can truly call my home. When I share knowledge with others and I know they benefit from my expertise....

Personality Number 3. The *Personality Number* comes from the Consonants in your Birth Name. 3's love dressing up. Your appearance is important to you. You're happy when you are well groomed and prepared to greet the public. Your gift is communication. The 3 Personality is witty and fun to be around.

You love to give advice, and even if it's unsolicited, it's usually well received.

Continued...

You are a good listener (and even better talker), and you love the telephone. In fact, conversation is a huge part of your Life. But work on your mood swings; even though you snap right out of it, others don't always get over them as quickly. Bringing joy to others is what really fulfills you.

Your **Power Name Number is 6!**This *Number* is derived from the Name you are *most commonly know by now*. Unlike your Date of Birth and Birth Name, which cannot be changed, we have control over the Power Name. Some folks even completely change their Name, such as when *Reginald Kenneth Dwight* become *Elton John!*

The Power Name Number 6 person is usually attractive in a way that goes beyond the physical. You present yourself well. There's a magnetism to you. You want to be in charge, and your air of authority makes it easy for others to follow you.

Damage control is your specialty and sometimes you get nervous when things go too smoothly. Relax, trouble is not necessarily around the corner. You are dependable to the point where you must seek a balance and learn to loosen up and enjoy the life you have so industriously built for yourself and your loved ones.

Your **Intensity Number is also a 6!** ...This *Number* is sometimes tricky to calculate, but generally refers to the *Number* that appears within your *Birth Name* the **most**.

Continued...

The 6 is The Nurturer, so if it's a man, he's rescuing the damsel in distress, and if it's a woman, she has a mate who's her little boy. Intensity 6's need to realize they don't have to do it all. They are magnetic, and you will be drawn to the 6. They don't know how to share responsibilities. They feel they have to do it all or it won't get done. So show them you can be there for them.

Lastly, one thing I wanted to mention was that with your Destiny and Birthday Numbers in alignment with your Personal Year Number, it's kind of "Your Year"! Take advantage of this....

WOW! That was amazing! I hope you enjoyed your *Report* as much as I did making it! ...There's a lot of Information there, and so you can see why I prefer doing someone's *Numerology Chart* before a Reading.

I'll have more for you, after I send you Johnny's Report, and the Analysis part!If you have any questions, let me know, or we can cover it in your Reading!

Blessings,

~Dax
